THE WARTIME PRICES AND TRADE BOARD

Administrator of Farm and Road Machinery Restriction Order No. R-1

(Renamed Administrator's Order No. A-1.)

Respecting Farm Machinery and Equipment

Whereas the large requirements of metals and other scarce materials for munitions and other war supplies compel the conservation of these commodities by all possible means; and, to further Canada's war effort, whilst recognizing the importance of the farm machinery and equipment industry in relation to the food supplies of Canada, the Empire and our Allies, it has become necessary to restrict the production of farm equipment and machinery and attachments and repair parts therefor.

And whereas, for similar reasons, the Government of the United States has restricted production; and since Canada imports a substantial portion of its farm equipment requirements from the United States, and since varying proportions of United States' raw materials, component parts and sub-assemblies are incorporated in Canadian-made farm equipment, it is necessary to co-ordinate the regulations of the two countries.

Now, therefore, pursuant to authority conferred by Order No. 82 of the Wartime Prices and Trade Board, dated the 6th day of January, 1942, I do hereby order, on behalf of the Wartime Prices and Trade Board, as follows:

1. Definitions

For the purposes of this Order, unless the context otherwise requires,

- (a) "Administrator" means the Administrator of Farm and Road Machinery and Municipal Services from time to time appointed by the Wartime Prices and Trade Board with the approval of the Governor in Council;
- (b) "attachments and repair parts" means all types of attachments and all types of parts customarily used in connection with farm machinery and equipment or for the repair thereof;
- (c) "designated percentage" means the percentage specifically designated for each class or type as listed in Schedule "A" hereto;
- (d) "farm machinery and equipment" means agricultural machinery, mechanical equipment and implements used on a farm for the production or care of crops, livestock, poultry or other produce, but excluding attachments and repair parts for farm machinery and equipment, and also excluding all of the following:
 - Tracklaying type tractors,
 - Irrigation and drainage equipment,
 - Hand tools other than those listed on Schedule "A" hereto,
 - Buildings and repairs thereto,
 - Fencing,
 - Poultry netting and wire,
 - Gates and wire fencing,
 - Bale ties and straps,
 - Well casing and water pipe,
 - Nails and sundry hardware except as included in Schedule "A" hereto;
- (e) "importer" means any person engaged in the importation *into Canada* of farm machinery and equipment or attachments and repair parts for farm machinery and equipment;
- (f) "person" means any individual, partnership, association, corporation or other form of enterprise *in Canada*;
- (g) "producer" means any person engaged in the manufacture of farm machinery and equipment or attachments and repair parts for farm machinery and equipment *in Canada*;
- (h) "sales in 1940" means the sales of the same class or type of farm machinery and equipment or attachments and repair parts as reported to the Dominion Bureau of Statistics for the Calendar Year 1940.

2. *Effective Date*

This Order shall be effective on and after the 19th day of January, 1942, and shall apply to the period November 1, 1941, to October 31, 1942, inclusive, unless and until otherwise ordered.

3. *Schedule "A"*

Schedule "A" is hereby made a part of this Order.

4. *Canadian Requirements—Excessive Manufacture and Importation Prohibited*

(a) No producer or importer shall, for sale in the Dominion of Canada, manufacture or import a quantity of farm equipment and machinery (as listed in Schedule "A" hereto) in excess of the designated percentage of said producer's or importer's sales in 1940.

(b) No producer or importer shall, for sale in the Dominion of Canada, use in the production of attachments and repair parts, (listed in Schedule "A" hereto) a quantity of any material in excess of 140 per cent of the quantity of such material used in the production of such producer's sales in 1940.

(c) In paragraph (b) above, the quantity of any material shall be determined by the net weight of such material physically incorporated in the final product, plus a reasonable allowance for loss in all manufacturing processes.

5. *Export Requirements—Restriction of Production*

No Canadian producer shall, for export, manufacture a quantity of any class or type of farm machinery and equipment or attachments and repair parts in excess of the overall percentage specifically designated from time to time by the Administrator; but nothing herein contained shall be construed as authorizing any exportation.

6. *New Machines*

New machines which either replace older models or relate to new farming methods may be brought within the scope of this Order by appeal to the Administrator, as provided in Section 14.

7. *Proper Assortment, Scheduling*

Every producer, subject to the provisions of this Order, shall plan his production schedule in accordance with the relative urgency and national need for a proper assortment of the different kinds of farm machinery and equipment and attachments and repair parts.

8. *Repairs*

Farm organizations shall urge farmers to make essential repairs as early as possible.

9. *Conservation of Materials*

(a) Every producer shall, wherever possible, use conservation measures such as substitution, redesign and respecification, to eliminate scarce materials normally used.

(b) The Administrator may from time to time require the elimination or reduction of the use of any material with or without a substitution of other materials, and may from time to time specify the use in the manufacture of farm machinery and equipment and attachments and repair parts to which specific materials may be put.

10. *Standardization and Simplification*

The Administrator may from time to time require the elimination of certain types and/or sizes of farm machinery and equipment and attachments and order the allocation of short-run products to a single manufacturer, who in turn would be required to supply those who previously manufactured such product.

11. *Records—Audit and Inspection*

All persons affected by this Order shall keep and preserve for not less than two years accurate and complete records concerning inventories, purchases, production and sales, and all records shall upon request be submitted to audit and inspection by duly authorized representatives of the Wartime Prices and Trade Board.

12. *Reports*

All persons affected by this Order shall execute and file with the Wartime Prices and Trade Board, or their duly authorized representatives, such reports and questionnaires or other returns as said Board shall from time to time request.

All producers and importers shall file with the Administrator, at the end of their fiscal year, but not later than October 31, 1942, a sworn statement of their production and imports after November 1, 1941. This statement is to show machines and equipment in units, and attachments and repair parts in tonnage.

13. *Violations and False Statements*

Any person who contravenes any provision of this Order or who makes any false statement in any return made pursuant to this Order is subject to the penalties provided in Section 8 of the Wartime Prices and Trade Regulations established by Order in Council P.C. 8528, dated the 1st day of November, 1941.

14. *Appeals*

Any person affected by this Order, or any amendment or supplement thereto, or any order or regulation of the Administrator, who considers that compliance therewith would work an exceptional and unreasonable hardship upon him or his customers, may apply for relief to the Administrator.

15. *Revocation, Modification or Amendment*

This Order and the accompanying schedule "A" may at any time be revoked, amended or modified by the Wartime Prices and Trade Board or by any person authorized by the Board, as to all or any one or more producers and importers affected hereby; and, by special directions issued to any producer or importer, the Wartime Prices and Trade Board, or any person authorized by the Board, may change any quota of such producer or importer.

16. *Sales, Terms and Inventories*

In order to confine the purchase of farm equipment to essential requirements and to conserve materials, the Administrator requires the following:

(a) Sales Terms

On all retail sales of farm implements, 40 per cent of the selling price shall be paid in cash by the purchaser on or before delivery. The remainder shall be paid in instalments. The maximum credit terms granted shall not exceed 24 months from date of delivery.

Where a trade-in is involved, the trade-in shall not be accepted in lieu of cash, but the amount allowed for the trade-in shall be deducted first from the total selling price and the remaining balance shall be settled for on the following basis:—40 per cent cash, and credit terms not to exceed 24 months. Established prices do not include the cost of delivering goods from the dealer's place of business or the purchaser's railway station to his farm and the purchaser shall receive all goods at the dealer's place of business or at this railway station, or pay the cost of delivery of same to his farm.

(b) The Handling of Repairs or Spare Parts by Dealers

All repairs or spare parts shall be supplied by the various Companies to their dealers on a "sold outright" basis. Dealers shall pay cash for same not later than the 10th day of the month following the month of shipment. Consignment stocks of repairs or spare parts now on hand with dealers shall be purchased by the dealer or returned on or before September 1, 1942.

Dated at Ottawa this 16th day of January, 1942.

*Administrator of Farm and Road Machinery
and Municipal Services.*

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-6

Respecting Made-to-measure Men's Clothing

Whereas there has been considerable increase in the cost of material and production of men's clothing made-to-measure or on special order since substantially similar clothing was made in 1941 for sale by retailers in the Fall of 1941, and it is expedient that, for purposes of the Maximum Prices Regulations, such increase in cost be adjusted fairly as between manufacturers and retailers;

Now therefore, pursuant to authority conferred by Order No. 76 of the Wartime Prices and Trade Board, dated the 16th day of December, 1941, I do order, on behalf of such Board and with the concurrence of the Administrator of Retail Trade, as follows:

1. (1) Each manufacturer of men's clothing that is made-to-measure or on special order for sale by retailers in the Spring and Summer of 1942 and that is substantially similar to men's clothing so made and sold at retail during the basic period referred to in the Maximum Prices Regulations may, in respect of the ranges referred to in subsection (2) of this Section, increase the price thereof
 - (a) by 50 cents per unit on all lines priced at \$20 and under, and
 - (b) by 5 per cent on all lines priced at \$20.50 and over.
- (2) The provisions of subsection (1) of this Section shall apply only to
 - (a) new sample ranges sent out by the manufacturer for the 1942 Spring selling season, and
 - (b) the staple sample ranges, commonly designated as Blues, Blacks and Greys, sent out for previous selling seasons and still in the hands of retailers.
- (3) No retailer shall, by reason of the said increase in price, add any amount to his maximum price for such clothing permitted by the Maximum Prices Regulations.

2. (1) Each manufacturer of seasonal Spring and Summer special men's clothing made-to-measure or on special order for sale by retailers in the Spring and Summer of 1942, and not substantially similar to men's clothing sold during the said basic period, may increase the price thereof by 10 per cent over his price for such special clothing of the same or substantially similar kind and quality made for sale by and sold by retailers in the Spring and Summer of 1941.

(2) Each such manufacturer on or before making and offering for sale such seasonal men's clothing shall furnish to the Administrator of Men's Clothing cost sheets, showing the style number, cost in detail, description of fabric and quality number of fabric used in such clothing, together with the prices quoted by him, to retailers for clothing of the same or substantially similar kind and quality sold by such retailers in the Spring and Summer of 1941.

(3) When the manufacturer of such seasonal clothing has increased the price thereof under this section, each wholesaler and retailer thereof may in turn price such clothing for resale at a markup (percentage on cost) not greater than the markup used in pricing similar clothing in the Spring and Summer of 1941.

Dated at Ottawa, the 2nd day of February, 1942.

HORACE R. COHEN,
Administrator of Men's Clothing.

Chairman, The Wartime Prices and Trade Board.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-8

Respecting Prices of Farm Machinery and Parts

Whereas most manufacturers of farm machinery (including implements, tools, and repair parts) adjusted their selling prices during or shortly before the basic period referred to in the Maximum Prices Regulations, with the result that about eighty per cent of all articles of this kind manufactured and sold in Canada were thus lawfully increased in price by an average of five per cent as compared with the prices in effect during the early part of 1941.

And whereas it is undesirable that the remaining lines representing a small proportion of total production, prices of which were in the course of adjustment during the basic period, but which adjustment was not actually put into effect, should continue to be sold at prices prevailing in the early part of 1941, thereby creating abnormal price relationships between similar articles made by different manufacturers.

Now therefore pursuant to authority conferred by Orders 76 and 91 of the Wartime Prices and Trade Board, I do order, on behalf of such Board, as follows:

1. For the purpose of this Order,

- (a) "Administrator" means the Administrator of Farm and Road Machinery and Municipal Services from time to time appointed by the Wartime Prices and Trade Board with the approval of the Governor in Council;
- (b) "Machinery and parts" means agricultural machinery and implements used on a farm for the production and care of crops, livestock, poultry, or other produce including attachments and repair parts for farm machinery.

2. Machinery and parts on which prices had been increased subsequent to July 1st, 1941, are not eligible for further adjustment.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-44

Respecting Prices of Domestic Canned Fruits and Vegetables

Whereas a substantial number of distributors based their ceiling prices for canned fruits and vegetables on purchases made in the Summer of 1941, or earlier, at the then current prices charged by canners;

And whereas canners' selling prices increased subsequent to such sales and were established during the basic period on sales to other distributors at a higher price level;

And whereas in order to establish retailers' cost of replacement stocks on a basis appropriate in relation to their retail ceiling prices it is necessary that adjustments be made, in certain cases, in the maximum prices that may be charged by canners and wholesalers;

Now, therefore, pursuant to authority conferred by Order No. 76 of The Wartime Prices and Trade Board dated the 16th day of December, 1941, and Order No. 91 of the said Board, dated the 20th day of January, 1942, I do hereby order, on behalf of such Board, and with the concurrence of the Administrators of Wholesale and Retail Trade, as follows:

1. For the purposes of this Order, unless the context otherwise requires,

- (a) "Canner" means any processor, packer or other manufacturer holding on March 31, 1942, a manufacturer's sales tax licence issued by the Excise Division of the Department of National Revenue and regularly producing for sale, on a commercial scale and through normal commercial channels, canned, preserved or otherwise processed vegetables and/or fruits, including juices, sold in tin or glass containers;
- (b) "Wholesaler" includes jobbers and brokers, and also all distributors maintaining separate central warehouse stocks of goods for distribution to retail stores.

2. Each canner having warehouse stocks (sold or unsold) of the products set forth in the Schedule to this Order shall take inventory thereof as at the close of business on Tuesday, March 31, 1942, and shall forthwith make a return thereof, verified by affidavit, to the Commodity Prices Stabilization Corporation Limited (hereinafter in this Order referred to as "the Corporation") on a form provided by the Corporation. Such return shall show for each separate warehouse the quantities on hand of each kind, brand, grade, and quality of the said products in each size and kind of container; provided, however, that unlabelled stocks shall be so described in lieu of brand name. Each return shall show

separately goods owned by the canner and goods invoiced but not delivered, including, in the latter case, name and address of purchaser.

3. (1) The maximum price at which any canner may sell or supply or offer to sell or supply any of his said stocks (excluding goods invoiced but not delivered) on and after April 1, 1942, shall be the lowest f.o.b. cannery price actually charged by him at any time prior to October 12, 1941 to any purchaser for the same kind, brand, grade and quality of product of the 1941 pack in the same size and kind of container; provided, however, that the said lowest price shall be related to actual sales in reasonable volume and not to any artificial, casual or unusual sale; and provided further that the said lowest price means the invoice price subject to cash and/or any other normal discounts actually granted on the sales in question.

(2) In cases of doubt, the Foods Administrator may determine any maximum price for any canner.

4. (1) Every canner shall forthwith make a return to the Corporation, verified by affidavit, in such form as may be prescribed by the Corporation, of a complete list of the said products produced by him, whether or not now held in warehouse, showing for each kind, brand, grade, and quality of the said products in each size and kind of container, the following:

- (i) the highest f.o.b. cannery price charged to any purchasers on sales made during the basic period, and total quantity sold at such price and (ii) the lowest f.o.b. cannery price referred to in Section 3 hereof, and total quantity sold at such price.

(2) Such return shall be submitted in duplicate and mailed to the Foods Administration, Wartime Prices and Trade Board, Metropolitan Building, Toronto.

5. Every canner shall send to each person who purchased any of the said products of the 1941 pack from him prior to April 1, 1942, a list of revised maximum prices f.o.b. cannery as established pursuant to Section 3 of this Order, for each kind, brand, grade and quality in each size and kind of container, actually purchased by such purchaser.

6. Every wholesaler maintaining separate central warehouses and owning stocks of the products set forth in the schedule to this Order shall take inventory thereof as at the close of business on Tuesday, March 31, 1942 and shall make a return thereof, verified by affidavit, to the Corporation on a form provided by the Corporation. Such return shall show separately (i) goods in warehouse, (ii) goods in transit to warehouse and (iii) goods in canners' warehouses invoiced to wholesaler but not delivered; and shall give such information separately for each separate central warehouse maintained by the wholesaler. The return shall show in each case the quantity, kind, brand, grade and quality of the said products in each size and kind of container.

7. In any case where the cost to a wholesaler of any of the said products is reduced, by reason of the operation of this Order or by reason of any subsidy that may be payable to him by the Commodity Prices Stabilization Corporation Limited, below the cost on which he based his maximum selling price during the basic period, his maximum selling price shall be reduced proportionately.

8. (1) Nothing in this Order shall be construed so as to authorize any increase in maximum retail prices for the said products pursuant to the Maximum Prices Regulation or any Order of the Board relating thereto.

(2) In any case where for any reason the cost of any of the said products to a retailer is reduced below the cost price on which he based his maximum selling price during the basic period, his maximum selling price shall be correspondingly reduced.

9. This Order shall be effective on and after March 25th, 1942.

Dated at Ottawa, this 23rd day of March, 1942.

J. G. TAGGART,
Foods Administrator.

Administrator's Order No. A-47

Respecting Smoked Cross Pack Fillets of Fish

Whereas as consequence of an increase in the cost of fish to the processor it is essential to eliminate certain types of processing thereof so that the cost to the consumer can be maintained at a reasonable level;

Now, therefore, pursuant to authority conferred by Order No. 82 of The Wartime Prices and Trade Board, dated the 6th day of January, 1942, and otherwise, I do hereby order, on behalf of such Board, as follows:

1. For the purposes of this Order,
 - (a) "processor" means any person engaged in the business of smoking, curing and packing any fish for sale in Canada;
 - (b) "cross pack fillets" means any smoked fillet of fish which is cut into two or more pieces and packed crosswise in any box or container for shipment to the trade.
2. No processor shall on or after the 1st day of May, 1942, prepare or pack any cross pack fillets.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-48

Respecting The Consolidated Mining & Smelting Company of Canada, Ltd.

Whereas the Consolidated Mining and Smelting Company of Canada, Limited, operates retail commissaries for the sale of goods to its employees at Goldfields in the Province of Saskatchewan and at Yellowknife in the Northwest Territories.

And whereas due to their isolated position the above mentioned commissaries are supplied from one year to eighteen months in advance, and their maximum retail selling prices during the basic period specified by the Maximum Prices Regulations did not reflect increased replacement costs up to and including the said basic period;

And whereas a majority of the employees of the above mentioned company have agreed in writing to accept price increases on all goods sold by the commissaries which replace goods sold during the said basic period, such price increases to consist of the difference between the laid down cost of present stocks of goods and the replacement costs at market prices in effect at the opening of the navigation season in the month of May, 1942;

Now, therefore, pursuant to authority conferred by Order No. 91 of the Wartime Prices and Trade Board, dated the twentieth day of January, 1942, and otherwise, I do hereby order, on behalf of such board, as follows:

1. For the purposes of the Maximum Prices Regulations the maximum price at which the Consolidated Mining and Smelting Company of Canada, Limited, may hereafter sell or offer for sale at retail any article of merchandise at commissaries operated by the said Company at Goldfields in Saskatchewan and at Yellowknife in the Northwest Territories shall be the maximum price for such article established by the said Company during the said basic period, plus an increase not greater than the amount by which the laid down cost of such article in the month of May, 1942, exceeds the laid down cost of the same or of a substantially similar article sold in the aforesaid manner by the said Company during the said basic period.

Dated at Ottawa, this 1st day of April, 1942.

E. G. BURTON,
Retail Trade Administrator.

Whereas the maximum prices of Welsh Blower Coal established during the basic period specified in the Maximum Prices Regulations, by S. M. Now, therefore, pursuant to authority conferred by Orders No. 76 and No. 91 of The Wartime Prices and Trade Board dated, respectively, the 16th day of December, 1941, and the 20th day of January, 1942, and otherwise, I do hereby order, on behalf of such Board, as follows:

1. Subject as hereinafter contained, no manufacturer shall hereafter sell or supply to any other person any fur lined and/or fur trimmed gloves, mitts and gauntlets whether wholly or partly lined or trimmed, at a price that is higher than the highest lawful price at which such manufacturer sold or supplied such fur lined and/or fur trimmed gloves, mitts or gauntlets of the same or substantially similar quality during the basic period, namely, September 15, 1941 to October 11, 1941; otherwise if such fur lined and/or fur trimmed gloves, mitts or gauntlets were not sold or supplied by him during the basic period then such maximum price shall not be higher than the highest price for which he sold such or similar fur lined and/or fur trimmed gloves, mitts or gauntlets during any seasonal period prior to said basic period in 1941; provided, however, that

THE WARTIME PRICES AND TRADE BOARD**Administrator's Order No. A-109****Respecting Rouville Knitting Company of Marieville, Quebec**

Whereas the Rouville Knitting Company Limited of Marieville, Quebec, as a matter of business policy did in the year 1941 purchase certain off-shade and other yarns at prices considerably below the prices then prevailing for standard materials;

And whereas it appears that the said Company is unable to purchase materials for such manufacture at the same price as that paid for the same or substantially similar materials purchased in 1941 as aforesaid;

And whereas it is in consequence deemed advisable to vary and adjust the price at which the said Company may sell some of its products;

Now, therefore, pursuant to authority conferred by Order No. 76 of the Wartime Prices and Trade Board, dated the 16th day of December, 1941, and Order No. 91 of the said Board, dated the 20th day of January, 1942, and otherwise, I do hereby order, on behalf of such Board, as follows:

1. The price at which Rouville Knitting Company, Limited of Marieville, Quebec, may hereafter sell or offer for sale any of its products specifically numbered according to its system of cataloguing and named and described after each respective number as such numbering, naming and describing is set forth in Schedule "A" hereto, shall not exceed the price per dozen f.o.b. mill, (sales tax extra) as shown in said Schedule after

each respective catalogue number and description. The said garments shall be packaged in paper parcels or cartons in quantities of not less than one dozen per package.

2. The price at which any person may hereafter sell any of the garments mentioned in Schedule "A" hereto and produced by said Company shall not include a greater mark-up (percentage on cost) than the mark-up provided and established by such person for the sale of the said Company's products during the said basic period.

Now therefore, pursuant to authority conferred by Order No. 76 of the Wartime Prices and Trade Board dated the 16th day of December, 1941, and Order No. 91 of the said Board dated the 20th of January, 1942, and otherwise, I do hereby order, on behalf of such Board as follows:

1. For the purposes of Section 3 of the Maximum Prices Regulations the maximum prices at which Chr. Hansen's Laboratory of Toronto, Ontario, may hereafter sell or offer for sale any Butter Colour shall not exceed the following:

- (a) \$3.50 per gallon when sold or offered for sale in five (5) gallon drums,
- (b) \$3.60 per gallon when sold or offered for sale in six (6) gallon cases,
- (c) \$3.70 per gallon when sold or offered for sale in single gallon cans.

2. The maximum prices for the sale of quantities other than those set out in Section 1 of this Order shall bear their normal relationship to the maximum prices established in Section 1 hereof.

3. Maximum prices for sales by wholesalers, jobbers, commission merchants or other dealers shall bear their normal relationship to the maximum prices established in Section 1 hereof.

All such maximum prices shall be f.o.b. such processor's plant and plus sales tax, if any.

2. No wholesaler or retailer shall hereafter sell or offer for sale such Canned Crabmeat at a price which includes a mark-up (percentage on cost) greater than the mark-up included in the price charged by him for such products during the said basic period.

Respecting Furniture

Whereas upon investigation it has been found that a considerable increase in the cost of production of certain furniture has been experienced by the manufacturers thereof,

And whereas in consequence of such increase it has become expedient to adjust the manufacturer's prices for such furniture,

And whereas, in keeping with the policy of maintaining the price to the consumer as the same has been established by the Maximum Prices Regulations, it is proper that a division of such increased cost be made and assumed equally by and between the manufacturer and retailer;

Now, therefore, pursuant to authority conferred by Order No. 76 of the Wartime Prices and Trade Board, dated the 16th day of December, 1941, and otherwise, I do hereby order, on behalf of such Board, and with the concurrence of the Administrator of Retail Trade, as follows:

1. For the purposes of this Order,

- (a) "manufacturer" means any person engaged wholly or partly in the manufacture of furniture in the Province of Quebec and/or any person engaged wholly or partly in the manufacture of furniture in the Province of Ontario who is subject to the terms of the Schedule for the Hard Furniture Industry made pursuant to the Industrial Standards Act, being Chapter 191, R.S.O., 1937 and amendments thereto;
- (b) "furniture" means that which is commonly known as furniture for houses, offices, churches, theatres, institutions and public buildings, of which furniture the chief component part is wood and such expression shall include wood parts for furniture where the process of manufacture has advanced to the point where the same can be used only in the production of furniture but shall not be taken to include any upholstered furniture (including chairs, chesterfields, arm chairs, couches, sofas, pull-up chairs, folding beds, stools or hassocks), school furniture, seasonal summer furniture, (including chairs, stools, recliners, canopies, extensions and cots) or frames for upholstered goods.
- (c) "retail dealer" means any person engaged wholly or partly in the sale or distribution of furniture to consumers by sale at retail.

2. The maximum price at which any manufacturer may hereafter sell or offer for sale any furniture to a retail dealer shall be the highest lawful price at which such manufacturer sold or offered for sale to any retail dealer furniture of the same kind, size, grade, quality and quantity during the basic period provided by the Maximum Prices Regulations, plus one-half of the actual amount by which his present cost of production exceeds his cost of production for such furniture made for sale at retail during the said basic period: provided, that no manufacturer in the Province of Ontario shall increase the highest price charged by him for any such furniture to any retail dealer in the said basic period by more than 6 per cent thereof: and provided that no manufacturer in the Province of Quebec shall increase the highest price charged by him for any such furniture to any retail dealer during the said basic period, by more than 4 per cent thereof.

3. No manufacturer may hereafter sell or offer for sale any furniture to a retail dealer unless and until his price of such furniture has the approval of the Furniture Administrator.

4. Nothing herein contained shall be deemed to authorize any retail dealer to sell or offer for sale any furniture at a price in excess of the maximum price pursuant to the Maximum Prices Regulations.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-166

Respecting Hudson's Bay Company

Whereas the Fur Trade Department of Hudson Bay Company of Winnipeg, Manitoba operates retail trading posts for the sale of goods in remote areas of Northern Quebec, Northern Ontario, Northern Manitoba, Northern Saskatchewan, Northern Alberta, and the North West Territories of Canada;

And whereas due to their isolated positions, the above mentioned trading posts must be supplied from one year to eighteen months in advance, and their maximum retail selling prices during the basic period did not reflect increased replacement costs up to and including the basic period;

And whereas it is expedient that new maximum retail prices be established on all goods sold by the trading posts, hereinafter designated in this Order, and that such new maximum prices reflect the replacement costs at market price in effect during the water navigation season to the North West Territories of Canada in the Spring and Summer of 1942.

Now therefore, pursuant to authority conferred by Order No. 91 of the Wartime Prices and Trade Board, dated the 20th day of January, 1942, and otherwise, I do hereby order, on behalf of such Board as follows:

1. The maximum price at which the Hudson's Bay Company may hereafter sell or offer for sale at retail any article of merchandise at any trading post named in Schedule "A" hereto shall be the maximum price for the same or a substantially similar article established by the said Company during the basic period provided by the Maximum Prices Regulations, plus an increase not greater than the amount by which the laid down cost to the said Company of such article during the said basic period exceeds the laid down cost to the said Company of the same or of a substantially similar article during the Spring season of 1941.

Dated at Ottawa, this 18th day of May, 1942.

E. G. BURTON,

Administrator of Retail Trade.

APPROVED:

D. GORDON,

Chairman, The Wartime Prices and Trade Board.

Administrator's Order No. A-34**Respecting Women's Misses' and Children's Fur Trimméd Cloth Coats and Fur Trimméd Garments**

Pursuant to authority conferred by Order No. 76 of The Wartime Prices and Trade Board, dated the 16th day of December, 1941, and Order No. 91 of the said Board, dated the 20th day of January, 1942, and otherwise, I do hereby order, on behalf of such Board, and with the concurrence of the Administrator of Wholesale Trade and the Administrator of Retail Trade, as follows:

Administrator's Orders No. A-81 and A-149, dated respectively the 4th day of April, 1942, and the 8th day of May, 1942, in so far as the same relate to women's, misses' and children's fur trimméd cloth coats and fur trimméd suits, and Administrator's Order No. A-34 shall no longer have effect.

1. For the purpose of this Order,

- (a) "manufacturer" means any person, who wholly or partly manufactures and/or directly or indirectly sells or distributes for sale at retail any women's, misses' and children's fur trimmed cloth coats and/or fur trimmed suits;
- (b) "Administrator" means the appropriate Administrator from time to time appointed by The Wartime Prices and Trade Board with the approval of the Governor in Council to regulate the supply, sale and distribution of the several garments described in this Order.

2. Every manufacturer before selling or offering for sale any women's, misses' or child's fur trimmed cloth coat or fur trimmed suit to be sold or offered for sale at retail in the fall and winter season of 1942-43, or in any season thereafter, shall furnish to the Administrator, cost sheets in respect of his manufacture of said garments showing—

- (a) the style number;
- (b) a description of fabric and quality number of fabric used in each style;
- (c) a description of the kind, grade, quantity and quality of fur used in each style;
- (d) the increase, if any, in the cost to him of fur used in each style of such garment over the cost of the same kind, and quality of fur used by him therefor in the corresponding season of 1941;
- (e) the price quoted by him to retailers for a garment of the same or substantially similar kind and quality which was sold or offered for sale at retail during the corresponding season of 1941;
- (f) such further and other information as the Administrator may from time to time request and otherwise as the circumstances may require.

3. No manufacturer shall sell or offer for sale any fur trimmed cloth coat or fur trimmed suit until his maximum price for same has been fixed by the Administrator.

- (a) The Administrator may, in writing, fix such maximum price but the same shall not exceed the highest lawful price at which such manufacturer sold or offered for sale any such garment of the same or substantially similar kind, style, grade and quality of materials and workmanship, for sale at retail during the basic period, namely, September 15th, 1941, to October 11th, 1941, by more than;
 - (i) five per cent of said highest lawful price for such garment made wholly of, cloth; and
 - (ii) the actual increase in the cost to the manufacturer of the fur used thereon over the cost to him of the same kind, grade, quantity and quality of fur used by him for such purpose in the corresponding season of 1941, together with his normal percentage on cost on such increase.

4. The Administrator may on his own motion, and at any time, and from time to time order and direct that the maximum price at which any manufacturer may sell or offer for sale any such coat or suit, be reduced by an amount equal to the reduction, if any, in the cost to the manufacturer of the fur used thereon under the cost to him of the same kind, grade, quantity and quality of fur used by him for such purpose in the corresponding season of 1941, together with his normal percentage on cost on the amount of such reduction.

5. For every sale of any such garments, every manufacturer shall prepare and deliver to the purchaser, an invoice which shall clearly and separately indicate

- (a) in the case of such sale to a jobber
 - (i) the increase, if any, in the price, allowed by the Administrator pursuant to Section 3 (a) (i) above;
 - (ii) the increase or decrease, if any, in the price, allowed or ordered by the Administrator pursuant to Section 3 (a) (ii) and Section 4 above;
- (b) in the case of such sale to a retailer
 - (i) the increase or decrease, if any, in the price, allowed or ordered by the Administrator pursuant to Section 3 (a) (ii) and Section 4 above.

6. In establishing the maximum price at which he may sell or offer for sale any such garment, every jobber shall first deduct from his laid-down cost thereof 50 per cent of the increase, if any, in the price allowed by the Administrator pursuant to Section 3 (a) (i)

above, and upon such result his mark-up (percentage on cost) shall not exceed the mark-up used by him in selling a garment of the same or substantially the same kind and quality which was offered for sale at retail during the basic period aforesaid; provided, however, that such mark-up shall not in any case exceed 30 per cent of the selling price of such jobber.

7. Every jobber shall record in a separate column of the invoice evidencing the sale of any such garment to any retailer, the amount of the increase, if any, in the cost of the fur used thereon over the cost of the same kind, grade, quantity and quality of fur used on any such garment which was offered for sale at retail during the said basic period.

8. Any difference in price which any manufacturer or jobber has customarily and lawfully allowed to different classes of buyers or for different quantities or under different conditions of sale which result in a lower net price per unit, shall be continued.

9. The maximum price at which any retailer may sell or offer for sale any such garment shall not exceed the highest lawful price at which such retailer sold or offered for sale during said basic period, any such garment of the same or substantially similar kind, grade, quantity and quality of fabric and fur and workmanship, by more than the increase, if any, in the cost of fur as recorded on the invoice as aforesaid, plus his normal mark-up on such increase.

11. No manufacturer, wholesaler or importer or any other person dealing in fertilizers or fertilizer materials shall discriminate against or differentiate between any of his cash customers, or fail or refuse to supply any such products from time to time available on equal terms as between such customers, provided that nothing in this Section contained shall prohibit any customary differentials based on quantity or conditions of sale.

REPLACING

Administrator's Order No. A-119

Respecting Natural Varnish Resins

Whereas in consequence of a shortage in supplies of shellac and of a change in the supply and demand of supplies of other natural varnish resins it is deemed expedient to vary the provisions of Administrator's Order No. A-119 dated the 27th day of April, 1942.

Therefore, pursuant to authority conferred by the Wartime Prices and Trade Board, I do hereby order, on behalf of such Board, as follows:

Said Administrator's Order No. A-119 is hereby revoked and the following is substituted therefor:

1. For the purposes of this Order,

- (a) "Administrator" means the Oils and Fats Administrator from time to time appointed by the Wartime Prices and Trade Board, with the approval of the Governor in Council;
- (b) "natural varnish resins" means all natural resins including Copal resins and any bastard copals such as Boea, Congo, Loba-manilla and Pontianak; any Kauri gum; any Damar resins such as Batavia Damar, Batu, Black East India, East India Macassar, East India Singapore and Singapore Damar; Acaroid resins (gum *accroides*); Sandarac; Mastic; Elemi; Dragon's-blood; Gum Kino and any natural lacquers, but shall not include any shellac.

2. Every manufacturer or processor of any paint or varnish materials, as said materials are defined in Administrator's Order No. A-304, and every broker and importer of natural varnish resins and any other person, who, on the 20th day of April, 1942, had on hand or in his possession or control any natural varnish resins, shall until further order of the Administrator keep, store and otherwise maintain on hand a quantity of such resins equal to 50 per cent of the quantity thereof, excluding shellac, he had on hand or in his possession or control on the said date.

3. On or before the 10th day of the month following each three months' period, commencing with that ending on the 30th day of September, 1942, every person, referred to in Section 2 above as having any natural varnish resins on hand or in his possession or control, shall make and file with the Administrator at Ottawa, Ontario, a report or statement, in writing, on a form provided for such purpose by the Administrator, showing the quantity of each of the natural varnish resins which he

- (a) had on hand or in his possession or control on the 20th day of April, 1942;
- (b) purchased or otherwise acquired during the three months' period covered by such report;
- (c) sold and delivered or otherwise disposed of during said period;
- (d) had on hand or in his possession or control at the end of such period, and
- (e) such further and other information as the Administrator may require and is necessary to make full answer to the questions provided in said form.

4. No person shall use any natural varnish resins in the manufacture or processing of any barn paint, freight car paint or road marking paint, provided, however, that for the purpose of manufacturing any road marking paint, any person may use not more than one-half pound of Batu gum per gallon of solids thereof.

Pursuant to authority conferred by the Wartime Prices and Trade Board, I do hereby order, on behalf of such Board, as follows:

1. For the purposes of this Order,
 - (a) "Administrator" means the Oils and Fats Administrator from time to time appointed by the Wartime Prices and Trade Board with the approval of the Governor in Council;
 - (b) "cut shellac" means any shellac which has been rendered soluble;
 - (c) "shellac" means any lac of all grades produced from the secretions of *Tachardia Lacea* and includes Seedlac and all such lac which has been bleached but does not include any lac which has been cut or incorporated in protective or technical coatings.
2. Except as provided in Section 3 of this Order, no person shall use any kind of shellac, in any form, for any purpose or in any manner other than as set out in Schedule "A" hereto; provided, however, that the Administrator may, in writing, permit any person to use any shellac in the maintenance and construction of any buildings required by any of His Majesty's Armed Forces or for the maintenance and repair of any vehicles provided for any such force.
3. For the purpose of essential industrial maintenance or essential civilian maintenance, the essentiality of which shall be determined by the Administrator any person may in any three months' period commencing with that ending on September 30, 1942, but only with the permission in writing from the Administrator, use bleached shellac in a quantity not to exceed 30 per cent of the quantity of all grades of shellac used for any such purpose by such person in the corresponding three months' period of 1941. Nothing in this Section shall be construed as permitting any one to sell or deliver any shellac to any person engaged as a wholesaler or retailer of hardware.
4. Every manufacturer or jobber, who has any cut shellac in his stock on the date of this Order,
 - (a) shall furnish the Administrator within fourteen days from such date, a stock sheet containing all details as to quantities and otherwise of such stock;
 - (b) shall, until his supply thereof has been exhausted, make a monthly return to the Administrator, not later than ten days after the close of each calendar month, showing all sales and deliveries of such stock made by him in and during the month concerning which the return is made.

7. Any person affected by this Order who considers that compliance therewith would work an exceptional and unreasonable hardship upon him, or would be unreasonably disproportionate compared with the amount of shellac conserved, or that compliance with this Order would disrupt or impair a program of conversion from non-defence to defence work, may appeal by addressing a letter to the Administrator, the Wartime Prices and Trade Board, Ottawa, Ontario, setting forth the pertinent facts and the reasons he considers that he is entitled to relief. The Administrator may thereupon take such action as is deemed necessary.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-391

Respecting Used Industrial Sewing Machines

Pursuant to authority conferred by The Wartime Prices and Trade Board, I do hereby order, on behalf of such Board, and with the concurrence of the Administrator of Supplies, as follows:

1. For the purposes of this Order,

- (a) "Administrator" means the Administrator of Used Goods, from time to time appointed by the Wartime Prices and Trade Board, with the approval of the Governor in Council;
- (b) "machine" means any used industrial sewing machine;
- (c) "rebuilt machine" means any machine in which all worn, broken and missing parts have been replaced or reworked, and which, upon being subjected to a proper test, is demonstrated to be capable of a substantially equivalent performance to that of the same machine when new.

2. No person shall, without the consent in writing of the Administrator, destroy any machine or alter, destroy or mutilate the serial number thereof.

3. No person shall sell or deliver any machine unless it has a class and variety number affixed thereto. If the class and variety of any machine has been changed, the appropriate number for same shall be affixed thereto in the place of the former number thereof.

 - (i) in the Province of New Brunswick, Nova Scotia, Prince Edward Island, Manitoba or Saskatchewan, the sum of \$2.50 may be added to such price established by the percentage aforesaid;
 - (ii) in the Province of Alberta or British Columbia the sum of \$5.00 may be added to such price established by the percentage aforesaid;
 and provided further that in any case where there was no list or catalogue price of any new machine of the same model as that of such rebuilt machine, during the basic period, then the maximum selling price of any such rebuilt machine shall be 75% of the basic period list or catalogue price for a new machine which is most similar to such rebuilt machine;
- (b) any used attachments not regularly included in the selling price of a similar machine when sold as new, at a price in excess of 75% of the price to the consumer, of similar attachments when sold as new;
- (c) any machine of any kind or condition other than a rebuilt machine, except at a price which shall bear the normal relationship to the price established as aforesaid for a rebuilt machine.

(5) In subsections (1), (2), (3) and (4) of this Section the quantity of material shall be determined by the net weight of such material physically incorporated in the final product plus a reasonable allowance for loss in manufacturing processes.

DISPOSITION OF INVENTORY OR STOCK

7. (1) Notwithstanding the foregoing provisions of this Order any producer who (after first applying the materials on hand which are permitted to be used in the manufacture of farm machinery, attachments, and repair parts by this Order), has a remaining inventory or stock of material which he is prohibited from using but which could be used in the manufacture of farm machinery and equipment, not listed in said Schedule "A", may make an application to the Administrator for permission to use such surplus materials, which application shall show

9. Notwithstanding the preceding Section of this Order the Administrator may, with the concurrence of the Department of Trade and Commerce, authorize a producer to divert machinery and equipment, attachments and repair parts designated for shipment to one of said countries to another of said countries; provided, however, that this shall not be construed as authority for increasing the overall tonnage which the producer may manufacture for export as fixed by the preceding Section.

RECORDS, AUDIT AND INSPECTION

10. Every person affected by this Order shall keep and preserve for not less than two years accurate and complete records of his inventories, stocks, purchases, production and sales of farm machinery and equipment, attachments, and repair parts, and all such records shall upon request be submitted for inspection and audit to The Wartime Prices and Trade Board or its duly authorized representatives.

REPORTS

11. Every producer and importer shall make and file with The Wartime Prices and Trade Board or its duly authorized representatives, such reports and other returns as the said Board may from time to time require.

12. Every producer and importer shall file with the Administrator not later than the 30th day of November, 1943, a sworn statement of his production and/or imports for the 1943 period, which statement shall show,

APPEALS

14. Any person affected by this Order, any amendment thereto or any ruling of the Administrator thereunder, who considers that compliance therewith will work an exceptional and unreasonable hardship upon him and his customers, may apply for relief to the

Administrator who may grant such relief as he considers necessary after taking into consideration all the circumstances of the applicant and the purposes of this Order.

Dated at Ottawa, this 12th day of September, 1942.

H. H. BLOOM,

*Administrator of Farm and Construction

9. The decision of a Room Rates Committee shall be in such form as a Rentals Administrator may from time to time prescribe.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-478

Respecting Leather Footwear

(Consolidated as amended by Administrator's Order No. A-524)

Pursuant to authority conferred by the Wartime Prices and Trade Board, I do hereby order, on behalf of such Board, and with the concurrence of the Administrator of Wholesale Trade and the Administrator of Retail Trade, as follows:—

Administrator's Order No. A-263 is hereby revoked and the following substituted therefor:

1. For the purposes of this Order,

- (a) "Administrator" means the Administrator of Footwear, from time to time appointed by the Wartime Prices and Trade Board with the approval of the Governor in Council;
- (b) "manufacturer" means any person, firm, association or corporation engaged in whole or in part in the manufacture of leather footwear.
- (c) "work shoes" means any shoes or boots which are designed to be worn at any form of work requiring specially heavy or substantially-made footwear.

2. No manufacturer shall hereafter manufacture or produce any leather footwear except in accordance with the specifications, restrictions and prohibitions set out in Schedules "A", "B", and "C" hereto; provided, that nothing in this Section shall apply to or restrict the manufacture of

- (a) special types of footwear made for the physically deformed or maimed;
- (b) football, baseball, hockey, skating, bowling, track and ski shoes and other similar footwear designed for use in active participation in sports which require specially constructed footwear for such use;
- (c) footwear made in accordance with specifications of the Dominion Government, any provincial government, or any municipal authority for use as part of a uniform required by a police force or fire department;
- (d) footwear ordered by the Department of Munitions and Supply or any agency thereof or the Department of National Defence for use by the armed forces;

provided further, that nothing in this Section shall be deemed to prohibit the manufacture of any footwear from materials on hand at the date of this Order and which have been cut or processed in such manner as to prevent their manufacture in conformity with the terms of this Order.

3. On and after the effective date of this Order, no manufacturer shall manufacture or put into process any leather or fabric for the manufacture of any footwear of a design and construction not utilized by him between October 1st, 1941, and the said effective date, excepting markers which do not involve any additional expense.

4. No manufacturer shall hereafter

- (a) make up or supply any footwear samples to be sold, except samples for sale,
 - (i) to recognized jobbers, and to chain stores having five or more branches, for display only to branch managers and salesmen, or
 - (ii) to mail order houses for the purpose of preparing catalogues;
- (b) supply any window samples or pullovers for customers' use;
- (c) attach or affix to any footwear any labels, woven, printed, fabric or otherwise, or any advertising tags, labels or stickers;
- (d) use more than one outsole stamp on each shoe or more than one embossing stamp on either heel pad, sock or quarterlining of one shoe only, such stamps to be applied in either case in one stamping operation only; provided that where a purchaser's trade marks are used dies and stamps shall be paid for by such purchaser.

5. No wholesaler or retailer shall return to any supplier for refund, credit or exchange any footwear

(a) which was made to special order and was delivered in accordance with such order; or

(b) which has been worn and requires only minor repairs;

provided that where footwear is returned by reason of major defects in materials or workmanship, the supplier may, at the option of his customer, effect such repairs as may be required or credit the customer's account with such amount as shall be fair and reasonable.

6. No wholesaler or retailer shall return to any supplier any new footwear except

(a) with the previous consent of such supplier and

(b) within thirty days from receipt of the said footwear, provided, that where footwear is specified for Spring, Summer, Fall or Christmas delivery, such delay shall be reckoned as follows:

Spring delivery—30 days from March 1,

Summer delivery—30 days from May 1,

Fall delivery—30 days from September 1,

Christmas delivery—30 days from November 1,

provided further, that such delay may be extended by the supplier when goods are admitted by him to be defective and in other cases in the discretion of the supplier.

7. Notwithstanding anything contained in Sections 5 or 6 hereof,

(1) the Administrator, in concurrence with the Administrator of Retail Trade, may appoint one or more committees to be known as Committees of Reference. Such committees shall be composed of one representative of manufacturers, and one representative of retailers and wholesalers.

(2) Where any difference arises between a supplier and his customer with respect to the return of merchandise under this order, either of such parties may refer the matter in dispute to a Committee of Reference, appointed as above provided, for decision. The Committee shall investigate the dispute, and shall make a decision thereon, which decision shall be final and binding on both parties to the dispute.

8. No manufacturer shall, in packaging footwear,

(a) use any cover paper other than white or natural kraft; where no cover paper is used, board shall be natural colour or grey only as supplied by the mills;

(b) use any box labels;

(c) use more than one stamping operation for stamping of size, description and other details;

(d) use more than one sheet of paper for one pair of shoes;

(e) use other than standard sizes of boxes as set out in Schedule D hereto, except where the use of such standard size would increase the manufacturer's costs.

9. No manufacturer shall ship on approval or consignment any footwear subject to this Order.

10. No manufacturer shall after the 31st day of December, 1942, purchase for the purpose of manufacturing footwear any stocks of leather existing at the date hereof in colours prohibited by this Order unless with the permission in writing of the Administrator and unless such stocks have been registered with the Administrator of Hides and Leather or the Administrator of Footwear.

11. Every manufacturer shall within 15 days from the date hereof submit to the Administrator drawings or photographs of every pattern which such manufacturer intends to use in the manufacture of footwear subject to this Order; and no manufacturer shall produce such footwear from any pattern unless and until such pattern has been so submitted.

12. This Order shall be effective on and after the 20th day of November, 1942.
(Section 9 revoked and Sections 10, 11, 12 and 13 renumbered 9, 10, 11 and 12 respectively by Administrator's Order No. A-524.)

Dated at Ottawa this 13th day of November, 1942.

LOUIS DAOUST,
Administrator of Footwear.

APPROVED:

D. GORDON,
Chairman, The Wartime Prices and Trade Board.

 THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-500

Respecting Wood-frame Bed Springs, Wood-frame Studio Couches and Metal Frame Beds with Composite Panels and Wood Side Rails

Whereas the use of metal in the manufacture of frames for bed springs and of side rails and composite panels for beds has been prohibited and the use of metal in the manufacture of studio couches has been restricted and in consequence substitute materials are now being used in the manufacture of frames for bed springs, of beds and of studio couches, resulting in the production of goods which are not of the same kind and quality as those goods, intended for the same purpose, which were sold during the basic period, namely, September 15, 1941, to October 11, 1941;

And whereas it is deemed advisable to establish procedure whereby manufacturers may apply to the Board to have the maximum price of such goods established;

Therefore pursuant to authority conferred by The Wartime Prices and Trade Board it is hereby ordered, on behalf of such Board and with the concurrence of the Administrator of Retail Trade, as follows:—

1. For the purposes of this Order,

(a) "Director of Bedding" means the person appointed as such by the said Board;

(b) "manufacturer" means a person who, in the ordinary course of business, makes or assembles any goods to which this Order is applicable;

- (c) "type" means the basic construction of the body of any product to which this Order is applicable, but shall not be taken to restrict the kinds of wood, trimmings, fabrics or other materials that may be used in, or the kinds of finish that may be applied on, or the size of, such product.

2. This Order shall apply to the following products, namely:—

- (a) wood-frame bed springs;
- (b) wood-frame studio couches; and
- (c) metal frame beds with composite panels and wood side rails

3. No manufacturer shall make or assemble more than

- (a) six types of wood-frame bed springs;
- (b) four types of wood-frame studio couches;
- (c) twelve types of metal frame beds with composite panels and wood side rails.

4. (1) Whenever any manufacturer proposes to manufacture any product to which this Order is applicable, he shall before selling, offering for sale or supplying the same make application to the Director of Bedding for fixing the maximum selling price of such product.

- (2) In the application referred to in subsection 1, the manufacturer shall show
- (a) an adequate description, including specifications, of such product;
- (b) proposed maximum selling price and the computation thereof in detail, the direct cost of materials and labour to be stated separately;
- (c) by comparative statement, detailed particulars of the factors and elements wherein such product and the most nearly comparable product for which manufacturer a maximum price has been fixed pursuant to the Wartime Prices and Trade Regulations, as to intrinsic worth, classification and competitive price range, will differ from each other in usefulness, durability, materials, workmanship and otherwise. Such manufacturer shall also send to the Director of Bedding, a photograph or an accurate sketch of the said product and of the said most nearly comparable product.

(3) The Director of Bedding shall thereupon compile his recommendations respecting the manufacturer's proposed maximum selling price of the product mentioned in such application and forward such recommendation together with the said application to the Deputy Administrator of Supplies who with the concurrence of the Administrator of Retail Trade shall fix the manufacturer's maximum selling price of such product.

6. (1) Whenever the manufacturer's maximum selling price of such product is fixed, the Director of Bedding shall

- (a) allocate a style number to such product;
- (b) prepare written instructions respecting the method to be followed in fixing the maximum selling price at which such product shall be sold at retail;
- (c) send to such manufacturer
 - (i) the style number allocated to such product;
 - (ii) a duplicate original of the direction by the Deputy Administrator of Supplies fixing the manufacturer's maximum selling price of such product;
 - (iii) true copies of the said written instructions.

(2) Every manufacturer shall

- (a) before making a sale to any customer of any product for which a maximum selling price has been fixed pursuant to this Order, furnish such customer with a copy of such written instructions;
- (b) in every sale, delivery or other disposition of such product designate the same by the number allocated to it by the Director aforesaid.

7. No manufacturer shall sell, offer to sell or supply any product to which this Order is applicable at a price higher than the lawful maximum selling price thereof as fixed pursuant to this Order.

8. The maximum price at which any retailer may sell, offer to sell or supply any product to which this Order is applicable shall be the sum of the following:—

- (a) the actual price paid by such retailer for such product not in any event exceeding the maximum price that may be charged by the manufacturer from whom he bought the same after allowing any difference in price which during the basic period, namely, September 15, 1941, to October 11, 1941, both inclusive, or customarily such manufacturer allowed to such retailer or to a retailer of the same class or for different quantities or under different conditions of sale resulting in a lower net price thereof, plus transportation charges and sales tax where or to the extent not borne by the supplier and not included in such actual price; and
- (b) a markup (percentage of cost) not exceeding the highest markup (percentage of cost) obtained by such retailer on sales of another product of the most nearly comparable classification during the said basic period, or (if no such other product offering a reasonable basis of comparison was sold by him during said period) by other retailers of the same class during the said period; provided, however, that, such markup shall not exceed forty per centum of such retailer's selling price of such product.

9. This Order shall not apply to the manufacture, sale and delivery of any goods mentioned in this Order for or to the Department of National Defence, the Department of National Defence Naval Services, the Department of National Defence Air Services, the Department of Munitions and Supply for Naval, Military or Air Services or any agency of any such Department.

10. This Order shall be effective on and after the 30th day of November, 1942.

Dated at Ottawa, this 28th day of November, 1942.

SCHEDULE "A"

to Administrator's Order No. A-515

Routine Order 2429 as amended by Routine Order 2536 issued by the Master General of the Ordnance.

Branch of the Master-General of the Ordnance

2429—Officers' and Warrant Officers' Class I Service Dress and Khaki Drill Jackets—
Modification of Pattern.

1. In view of the general need for the economical use of materials, it has been decided to modify the regulation pattern of Officers' and Warrant Officers' Class I service dress jackets as follows:—

- (a) Box pleats to be omitted from breast pockets;
- (b) Bottom pockets to be of the slit type (inside) with flaps as worn in a civilian jacket, instead of bellows pockets; no exposed buttons or button holes;
- (c) A plain sleeve without built-on cuffs, except in the case of the Scottish pattern jacket which will retain the gauntlet cuff.

2. As it is imperative that the saving in material, which will result by the introduction of the above mentioned modifications, be made effective immediately, all Officers and Warrant Officers Class I obtaining jackets in future, whether as initial outfits or as replacements, will have them made up to the new pattern.

Officers and Warrant Officers Class I will not be required to have their existing jackets altered and both the present universal pattern and the modified pattern may be worn side by side in a unit until the universal pattern jackets become worn out.

3. The alterations referred to in paragraph 1 above will also apply to khaki drill jackets and the optional garments made of tropical worsted, gabardine, or other light weight fabrics.

4. There will be no change in the regulation jackets authorized for Officers and Warrant Officers Class I of regiments of Foot Guards, as these garments are already designed on very similar lines to the modified pattern referred to in paragraph 1.

THE WARTIME PRICES AND TRADE BOARD

Administrator's Order No. A-531

Respecting Soft Drinks

Pursuant to authority conferred by The Wartime Prices and Trade Board, it is hereby ordered on behalf of the said Board, as follows:—

1. For the purposes of this Order,

- (a) "soft drink product" means a beverage consisting of unfermented fruit juices and imitations thereof, carbonated, lithiated or mineral beverages and any other compounded or mixed soft drink, but the expression does not include grape or any other native fruit juice where at least 95 per cent of the product sold consists of pure juice of the fruit;
- (b) "bottled soft drink" means a soft drink product put up in bottles or other container for sale to the consumer, ready to use;
- (c) "fountain soft drink" means a soft drink product produced by combining a quantity of flavoured syrup with a liquid and aerating the same with carbonic acid gas or similar preparation, which is sold to a consumer by the glass or other container;
- (d) "manufacturer" means a person wholly or partly engaged in manufacturing, bottling, selling otherwise than at retail or in distributing bottled soft drinks;
- (e) "wholesaler" means a person who sells and distributes bottled soft drinks otherwise than at retail and includes a jobber.

2. (1) For the purposes of The Wartime Prices and Trade Regulations, and in pursuance of Orders Nos. 104 and 147 of the Board, on the sale at retail of any soft drink product, the maximum amount which any person may ask or receive for the price of such product and for all taxes levied on such product by the Parliament of Canada, shall be

- (a) seven cents (7c) per bottle for any bottled soft drink of six fluid ounces or of any larger size up to and including thirteen fluid ounces; provided, however, that any person may sell at retail any bottled soft drink of any such size in any restaurant, cafe or other place where meals are served to the transient public at not more than the price established by him in such place during the basic period referred to in the said Regulations, but such price shall not in any event exceed ten cents (10c) per bottle. The burden of proof that a seller's maximum selling price for a bottled soft drink of any of said sizes exceeded seven cents during the said basic period shall rest with such seller;
- (b) six cents (6c) per glass, for any fountain soft drink of five fluid ounces or of any larger size up to and including eight fluid ounces;
- (c) ten cents (10c) per glass, for any fountain soft drink of nine fluid ounces or of any larger size up to and including twelve fluid ounces

Provided, however, that

- (i) any person may sell any bottled soft drink or fountain soft drink at retail, on any train or in any hotel, cabaret or amusement park,
- (ii) any person may sell at retail, any bottled soft drink contained in a bottle having a capacity of more than thirteen fluid ounces,
- (iii) any person whose place of business is remote from the usual sources of supply of such goods, may continue to sell bottled soft drinks at retail,
- (iv) every person selling at retail any bottled soft drink in units commonly called "carry-home" cartons shall sell such units

at not more than the highest lawful price established by him for such bottled soft drink or Fountain soft drink, during the said basic period plus such part of the taxes levied on such product by the Parliament of Canada as were not included in the highest lawful price established by him during the said basic period.

(2) Nothing in this section contained shall be deemed to prohibit any person who sells any soft drink product from collecting any tax heretofore levied by any Provincial authority on any such product.

3. (1) For the purpose of bottling any soft drink product for sale at retail, no manufacturer shall use bottles of any capacity or capacities less than the capacity or capacities of those bottles in which he bottled the same soft drink product for resale at retail during the said basic period.

(2) The maximum price per case at which a manufacturer or wholesaler may sell any bottled soft drink shall not be more than the highest lawful price established by him during the said basic period, notwithstanding that bottles used to contain the soft drink product may at any time be of a size larger than that used by him during the said basic period.

4. In the manufacture of bottled soft drinks no manufacturer shall use more than six flavours or more than the number of flavours heretofore used by him for such purpose, whichever is less; provided that

- (i) for the purposes of this section, carbonated, litheated or mineral water shall each be deemed to be a flavour, and
- (ii) nothing in this section shall be construed as prohibiting a manufacturer from bottling in various sizes of containers any specified flavour of any particular soft drink product.

5. (1) In every sale of a bottled soft drink made after the 18th day of January, 1943, a deposit charge of three cents (3c.) for each bottle of a capacity of six fluid ounces or any other capacity up to and including thirteen fluid ounces, and five cents (5c.) for each bottle of a capacity greater than thirteen fluid ounces shall be made by

- (a) a manufacturer, wholesaler or jobber for each bottle supplied by him to a retailer,
- (b) a retailer for each bottle supplied by him to a consumer and removed from the premises of such retailer by or for delivery to such consumer,

provided that every person who on the effective date of this Order maintained a practice of charging a deposit of more than three cents (3c.) for any bottle of a capacity of six fluid ounces or of any other capacity up to and including thirteen fluid ounces, shall continue to make such greater deposit charge on such bottle.

(2) The Food Administrator may upon application, increase the deposit charge for any bottle in any case where it is shown that by reason of the size and value of such bottle, the deposit charge fixed as aforesaid is insufficient to ensure the prompt return of same to the holder of the deposit.

(3) Payment of such deposit charge shall be collected with and at the time when payment is made for the bottled soft drink.

(4) The amount of each such deposit charge shall be refunded by the holder thereof to the person who returns the bottle for which such deposit charge was made.

6. The Food Administrator may, from time to time

- (a) grant such exemption, permit or authority in special cases of individual hardship and in such other cases as he deems proper;
- (b) require any manufacturer, wholesaler or jobber to furnish in such form and within such time as the Administrator may prescribe, written returns showing such information as the Administrator may consider necessary with respect to soft drink products, bottled soft drinks and fountain soft drinks.

7. This Order shall be effective on and after the 28th day of December, 1942.

Dated at Ottawa, this 23rd day of December, 1942.

Food Administrator.

- (b) "automotive vehicle" means any vehicle or trailer propelled or drawn by mechanical means (otherwise than on rails) and adapted or designed for the carrying of goods;
- (c) the words "milk" and "cream" mean these products before they are processed or bottled, except for such processing, if any, as they receive on a farm.

2. No person shall use or cause or permit to be used any automotive vehicle to transport milk or cream except under the authority and in accordance with the terms of either a general permit, as provided for in Section 3, or of a specific permit granted by the Administrator, as provided for in Section 4; provided however that the provisions of this Order shall not apply to the use of any automotive vehicle to transport milk or cream produced on a farm owned or operated by the owner of such automotive vehicle, so long as it is confined to such use.

- 3. (1) Every person engaged in the business of transporting milk or cream during the four weeks' period ending December 26, 1942, is hereby granted a general permit to continue such business, but only over the collection routes which such person operated during the said four weeks' period, and under the same conditions as to frequency of collection as existed on each such route during the said four weeks' period.
- (2) Every person to whom a general permit is granted by the provisions of this Section shall make application for a specific permit on or before the 31st day of January, 1943.

4. (1) Every application for a specific permit to engage in the business of transporting milk or cream shall be made in such form as the Administrator may from time to time prescribe and sent to him in care of any Regional Office of the Board.
- (2) To assist him in dealing with such applications, the Administrator may establish Provincial or Regional Advisory Committees composed of representatives of The Wartime Prices and Trade Board and of the Department of Agriculture and other departments of the Provincial Governments and other persons.
- (3) The Administrator may refuse to grant a specific permit or may grant a specific permit on such terms as to routes, rates, frequency and method of collection or otherwise as he deems advisable.

5. Notwithstanding any other provision of this Order, any general permit or specific permit may be cancelled or varied at any time by the Administrator by direction in writing, and the Administrator may direct in writing that on and after a date fixed by him all general permits then outstanding shall be deemed to have been cancelled.

6. A general permit granted by the provisions of Section 3 shall not constitute an exemption from the provisions of Administrator's Order No. A-314, as amended, respecting the operation of private commercial vehicles, but any specific permit granted under the provisions of this Order shall exempt an automotive vehicle from the provisions of the said Order during the time such automotive vehicle is being operated in accordance with the terms of such specific permit.
